- TASKS:** 442 active, 585 total

Below the summary cards are two panels:

- Personal info:** Last login section with fields for Date (April 2, 2021, 4:35:31 AM) and From (0:0:0:0:0:0:1).
- System status:** CPU Usage (24) and Heap memory (7.6GB / 32.0GB / 32.0GB).

midPoint

Release date: 09 April 2021

Release type: Feautre release

End of Support: 09 April 2022

Introduction

Nowadays companies grow fast and naturally this process is followed by personnel changes, hiring new employees, assigning new roles and creating new projects and tasks very often. All of it brings transformation of business processes, new business rules, policies and active organizational structures. Accordingly, the need to keep all identity information up to date, secure and protected is strong. From technical point of view, it is necessary to set up approval processes, synchronize data, integrate systems, format and transform data, set protocols leading to speeding up IT processes and with efficiency cut IT costs. It is needed to let identity management and identity governance run a dialogue. The way how to manage it is called midPoint.

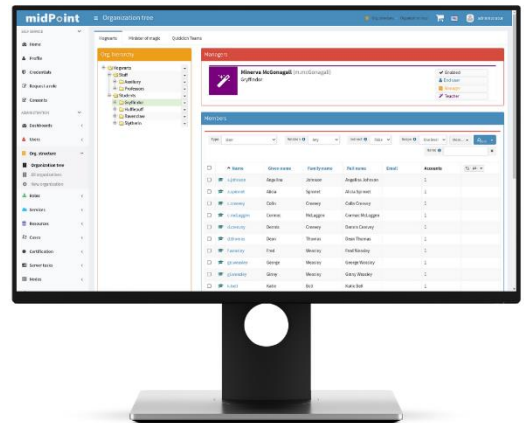

midPoint

MidPoint is unique open source solution combining identity management and identity governance. It covers both technological and business requirements. Intense development activities guarantee the technologically innovative solution which can work effectively for years. And what makes midPoint so special? The fact that it is an open source product with services covering all customer's needs, it is supported by developers themselves and subscribers have influence on the product roadmap. Timeless open source model allows a completely transparent approach and constantly growing vibrant engineering and business community.

Version 4.3 "Faraday"

Release 4.3 is a thirty-fifth midPoint release code-named Faraday. The 4.3 release brings performance improvements, user interface and diagnostic improvements and major internal improvements. **Michael Faraday** (1791-1867) was an English scientist who contributed to the study of

What organizations is midPoint suitable for?

Banking

Financial

Telco

Healthcare

Science

Governmental entities

Manufacturing

electromagnetism and electrochemistry. His research on electricity and magnetic fields lead him to inventions of electromagnetic rotary devices, which formed the foundation of electric motor technology. He was one of the most influential scientists in history, paving the way for practical use of electricity in technology. Even though it might not been obvious during his lifetime, Faraday's work changed our lives forever.

Similarly to Faraday's inventions, **midPoint 4.3** brings **radical improvements**. However, most of the improvements are still hidden under the hood. MidPoint 4.3 is paving the way for major leap in performance and scalability that is planned for midPoint 4.4. Yet, midPoint 4.3 still brings significant benefits on its own. There are numerous improvements to user interface and diagnostics, as well as performance improvements. MidPoint 4.3 is a **significant step** in the direction of large-scale midPoint deployments.
