

midPoint by Evolveum

When selecting an IGA product for your customers, a trusted identity security provider is the key to success. Experience true digital identity security with the freedom only open source software can give you.

MidPoint is the leading open source platform that goes one step further by combining identity management with identity governance. Whether you prefer having your deployment in the cloud, on-premise or making use of both, when it comes to identity management and process efficiency, one should make no compromises.

2 million+ lines
of thoroughly written code

Scalable up to
100 million identities

18 million managed identities
in one deployment

Can be deployed
in any industry

Our Happy Customers: European Commission, Internet2, Deutsche Telekom, Dartmouth College, WWK, and others

Key Benefits of MidPoint

Open Source Software

Enhance your portfolio with this dominating product on the open source market. The OSS aspect will allow you to explore the code and leverage the transparency it brings.

Test It Before Adoption

Try and trust midPoint before adoption, and enjoy its publicly available documentation.

Influence the Roadmap

Discover the power of subscription, and influence the product roadmap.

Continuous Product Development

Boost your innovation and security thanks to our constant product development and improvement.

Unlimited Possibilities of Integration

Connect midPoint to your favorite apps by means of our extensive list of supportable connectors, and use your choice of SSO/MFA and other applications.

Globally recognized

Work with the only open source product that has been recognized by Gartner as a complete IGA suite.

Evolveum is a globally recognized EU based organization that was established in 2011. With its dedicated team of professionals, Evolveum is the creator and maintainer of the leading open source identity platform, midPoint. The feature set covering identity governance and administration makes midPoint the ideal choice for organizations seeking digital transformation to enhance security and efficiency.

Evolveum
